

# ● ● ● PERSPECTIVES

## ● ● ● *thinking outside the box*

Our interdisciplinary discussion series Perspectives aims to encourage members of St Chad's College – whether JCR, MCR, or SCR – to develop their multi-disciplinary intellectual curiosity; their skills of critical and innovative thinking; and their self-identity as responsible, informed, and effective global citizens.

Perspectives is a twice-termly, well-publicized, and accessible forum in which members of St Chad's College, regardless of age, experience, and level of expertise, can gather to hear from speakers, to examine their own views, and to engage in rigorous, respectful discussion with others.

At each event, three academics from around the University share their disciplinary take on a 'big question', allowing members to learn about an issue from multiple 'perspectives' and to make up their own minds through small group and large group discussion.

Past discussions have included:

- The Future of Meat?
- Is Democracy Working?
- Generation Snowflake?
- Are We Living in a Post-Gender Age?
- Can We Trust Our Technology?
- Does Class Matter?
- What is Global Citizenship?
- Pornography: Healthy or Harmful?
- We Should All Be Feminists?

In 2018, has the battle for social, economic, and political equality for women been won, or is there still more to do?
