

## Getting your finances in order well before starting your studies and having a financial plan is the key to enjoying your time here at University !

**Home students:** you should have already applied for and received your student finance entitlement letter. If you haven't, apply as soon as you can to Student Finance England, Student Finance Northern Ireland, Student Awards Agency for Scotland or Student Finance Wales.

**Students from the EU:** Unfortunately, as a student from the European Union you will not be eligible for Maintenance Loans from the British Government to cover your living costs. However, you may be entitled to a tuition fee loan. See: <https://www.gov.uk/apply-for-student-finance>. **We realise that you have probably thought of this—you must be able to afford your studies before you start them as the University is not able to provide any funding to students who start their studies in the knowledge they could not afford their tuition fees and living costs.**

**International students:** There is very limited financial support available for international undergraduates studying in Great Britain.

Information about Scholarships the University offers are here:
